

FORESTRY IS NOT A PLANTING CHALLENGE. IT IS AN IMPLEMENTATION CHALLENGE.

WHO WE ARE

Most forestry projects succeed
at planting.

Far fewer succeed at maintaining:

- ✓ Survival
- ✓ Protection
- ✓ Community engagement
- ✓ Monitoring
- ✓ Long-term management

The gap between planting and
long-term implementation is where
most forestry projects fail.

Better Globe Forestry (BGF) is East Africa's
forestry implementation platform specialising in
commercial forestry, agroforestry and landscape
restoration.

For more than two decades, we have designed,
established, managed and monitored forestry
programmes across Kenya and Uganda.

COMMERCIAL FORESTRY
Long-term plantation
establishment and management.

SMALLHOLDER AGROFORESTRY
Tree-based farming systems
integrated with livelihoods.

LANDSCAPE RESTORATION
Large-scale restoration of
degraded landscapes.

BGF AT A GLANCE

	20+ Years	Forestry implementation experience
	20,000+ Farmers	Participating in programmes
	12,000+ ha	Agroforestry landscapes
	1,200 ha	Commercial plantations
	Kenya & Uganda	Operational presence
	150 Staff	Supported by seasonal field teams

IMPLEMENTATION STARTS IN THE NURSERY

Strong outcomes begin
with quality seedlings,
careful planning and
technical excellence
on the ground.

Forestry success is not determined by planting.

It is determined by implementation, continuity and long-term stewardship.

EAST AFRICA'S FORESTRY IMPLEMENTATION PLATFORM

WHERE WE ARE

Apart from our HQ in Nairobi, our field
operations are currently in:

- 1 Kiambere
- 2 Seven Forks
- 3 Nyongoro
- 4 Dokolo, Uganda

OUR FORESTRY MODELS

COMMERCIAL FORESTRY

- Plantation establishment
- Plantation management
- Timber production
- Long-term asset development

Example: Kiambere Plantation

SMALLHOLDER AGROFORESTRY

- Farmer integration
- Tree-based livelihoods
- Farm resilience
- Income diversification

Example: 7 Forks & Dokolo

LANDSCAPE RESTORATION

- Ecosystem restoration
- Community engagement
- Native and mixed-species planting
- Long-term landscape management

Example: Dokolo

WHY PARTNERS WORK WITH BGF

- ✓ 20+ years of
operational
experience
- ✓ Permanent
East African
presence
- ✓ Proven
implementation
networks
- ✓ GIS, monitoring
and reporting
capabilities
- ✓ End-to-end forestry
programme delivery
- ✓ Long-term
commitment
beyond planting

Forestry is not measured by trees planted.
It is measured by trees surviving.

Better Globe Forestry delivers the
implementation that turns forestry ambition
into long-term impact.
